CAREER SUMMARY

Driven Computer Science and Engineering student with a strong foundation in the MERN stack and data structures. Adept at developing real-world applications and optimizing system performance.

TECHNICAL SKILLS

Programming Languages: C, C++, JAVA, JavaScript, SQL

Web Technology: MERN Stack (MongoDB, Express.js, React Native, Node.js), Next.js, HTML, CSS, Bootstrap

Developer Tools & Cloud: Git, GitHub, CI/CD, Netlify, Cloud Technologies

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Relational Databases

PROJECTS

CityBus Go – Real-Time Transit Platform

- Collaborated within a team to engineer a real-time transit platform using the MERN stack (MongoDB, Express, React Native), building a sustainable technology solution for underserved urban areas.
- Developed secure, stable software by implementing a dual-interface system with WebSockets, ensuring application resiliency and lag-free GPS transmission between the Driver Portal and Commuter App.
- Leveraged cloud technologies to deploy the frontend interface on Netlify, actively applying CI/CD principles to automate updates and reduce manual toil in the SDLC.

EventEase – Event Planning Website

- Executed the end-to-end software design and development of a feature-rich web application using HTML, CSS, and JavaScript to streamline personal and corporate event planning.
- Wrote secure and high-quality code to integrate dynamic content rendering and form-based user inputs, ensuring a stable software experience and responsive user interface.
- Leveraged developmental toolsets and cloud technologies to deploy the frontend, demonstrating a strong understanding of software maintenance and continuous improvement.

EDUCATION

Bachelor in Technology (Computer Science and Engineering)

06/2023 – 06/2027

GL Bajaj Group of Institutions (Dr. A. P. J. Abdul Kalam Technical University, Lucknow)

Current CGPA: 6.7 — No Active Backlogs

12th CBSE Board

2023

Percentage: 60%

10th CBSE Board

2021

Percentage: 60%
